

Global Radio Streaming for Every Screen

50,000+ stations · 238 countries ·
Samsung, LG, Apple TV, Android TV

Seed Round 2025

themegaradio.com

THE PROBLEM

Radio listening on TV is a broken experience

85% of smart TVs ship with no dedicated radio app. Listeners are forced onto phones, laptops, or old-fashioned FM — while TV screens sit idle.

No native TV radio apps

Samsung Smart Hub and LG Content Store offer fewer than 3 radio apps globally, none with full station catalogs.

Fragmented discovery

Listeners cannot browse by genre, country, or language. Finding a station requires knowing its exact name or frequency.

No cross-device continuity

Favorites, history, and preferences don't follow users from phone to TV — every session starts from scratch.

One app. Every screen. Every station.

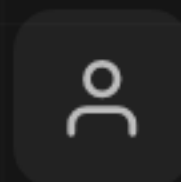

Native TV Apps

Purpose-built for Samsung Tizen and LG webOS — remote-first navigation, 10-foot UI, ambient mode.

50,000+ Stations

Curated catalog across 238 countries, 50 languages, organized by genre, mood, and location.

Cross-Device Sync

Favorites, history, and preferences follow users from TV to mobile to web — one account, every device.

Radio Mega is the first multi-platform streaming app built exclusively for the living room — designed from the ground up for TV remote navigation and large-screen consumption.

PRODUCT

Designed for the living room

Remote-first navigation

D-pad focus system built for every major Smart TV platform.

Smart discovery by country, genre & language

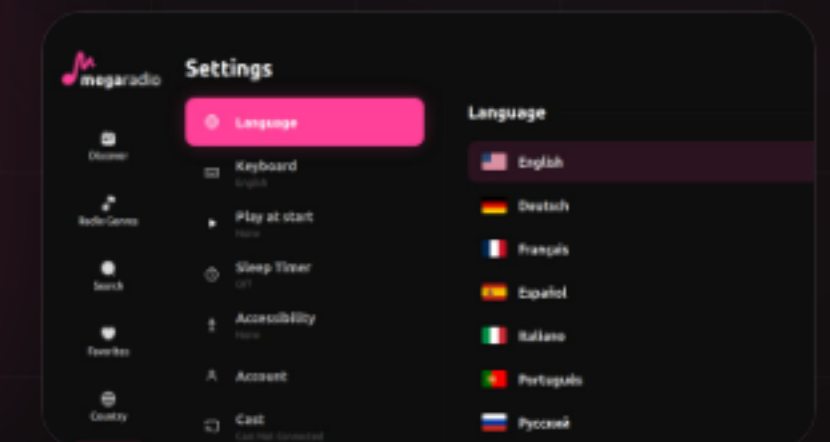

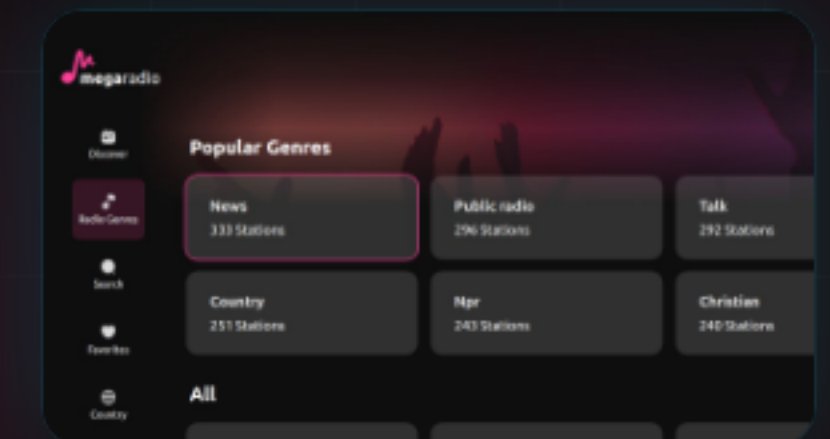

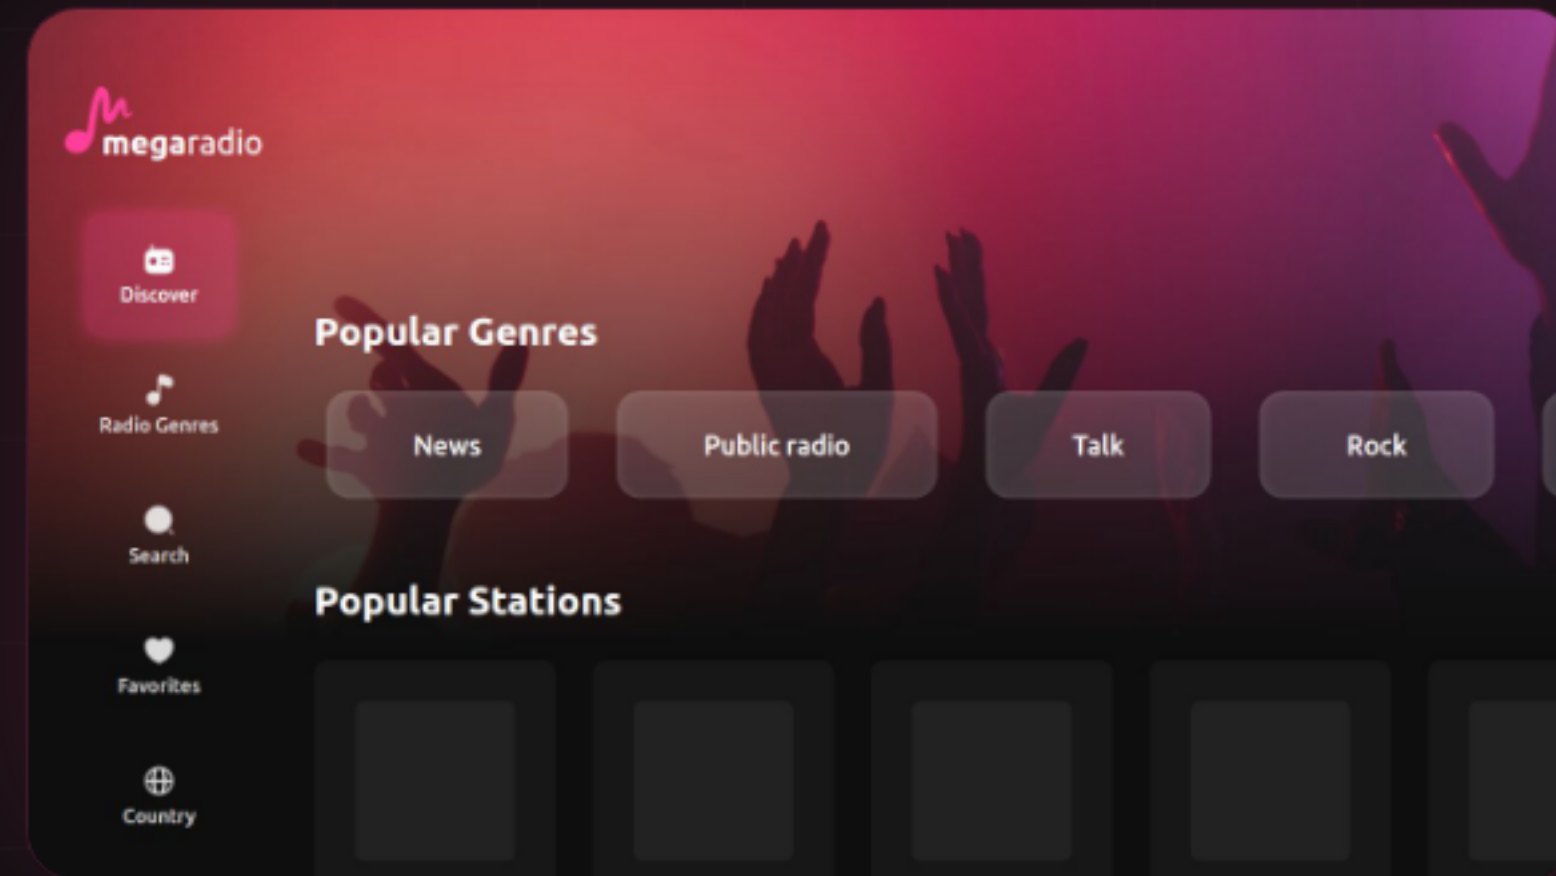

Curated browsing across 50K+ stations from 238 countries.

Ambient screensaver mode

Station art and visualizer fill the screen when idle.

Device-code login & cross-device sync

Scan a QR on your phone to log in — no TV keyboard needed.

MARKET SIZE

A \$50B+ addressable market growing at 15% per year

TAM

\$52B

Global online audio

Streaming radio, podcasts, and live audio worldwide (2025 estimate)

SAM

\$14B

Smart TV audio

Radio and audio consumed via connected TV and OTT devices globally

SOM

\$800M

5-year target

1% capture of SAM through premium + B2B channels by 2030

1.2B smart TVs in active use globally (2025)

15% CAGR online radio 2023-2028

500M+ weekly radio listeners in Europe alone

Four revenue streams, one platform

01 — Premium Subscription

Ad-free listening, offline favorites, early platform access.
Individual and family plans.

\$4.99 / mo · \$39.99 / yr

02 — Programmatic Advertising

Audio + display ads served to free-tier users. CPM-based, geo-targeted, brand-safe inventory.

\$8–12 CPM · Revenue share with stations

03 — B2B Licensing

White-label platform for hotels, airlines, and hospitality chains. Branded apps on their TV estate.

\$2K–15K / mo · Per property

04 — Station Partnership

Promoted placement, analytics dashboards, and verified station badges for broadcaster partners.

\$199–999 / mo · Per station

REVENUE PROJECTIONS

Path to \$10M ARR by Year 3

Year 1 (2026)	\$820K
Year 2 (2027)	\$3.4M
Year 3 (2028)	\$10.1M

Gross margin target

72%

ARR GROWTH (\$M)

Projections based on 150K premium users Y1, 600K Y2, 1.8M Y3 — plus B2B and advertising revenue

OAuth 2.0 Device Flow

TV auth standard

TV first. Then everywhere.

PHASE 1 — NOW

Smart TV

Own the largest screen in the home. Build the brand, grow the audience, establish OEM relationships. TV radio is habit — the daily listening session is 2.4 hours.

- Samsung Tizen — LIVE
- LG webOS — LIVE
- Apple TV — Q3 2025
- Android TV / Fire TV — Q4 2025

PHASE 2 — 2025

Mobile Companion

iOS and Android apps serve as remote controls for the TV — and as standalone listening clients on the go. The TV session drives mobile install; mobile drives premium conversion.

- iOS — Q4 2025
- Android — Q4 2025
- TV remote control via app
- Cross-device favorites sync

PHASE 3 — 2026

Web & B2B

Web player completes the cross-device story. B2B white-label SDK lets hotels, airlines, and broadcasters embed Radio Mega under their own brand.

- Progressive web app (PWA)
- Hotel & hospitality white-label
- OEM pre-install partnerships
- Broadcaster SDK

No direct competitor owns the TV screen

FEATURE	Radio Mega	TuneIn	iHeart	Spotify	FM Radio
Native Smart TV app	✓	✓	—	—	—
Full TV remote navigation	✓	—	—	—	—
50K+ stations	✓	✓	—	—	—
238-country catalog	✓	—	—	—	—
Free tier available	✓	✓	✓	✓	✓
Cross-device sync	✓	✓	✓	✓	—
Ambient TV mode	✓	—	—	—	—
B2B / white-label	✓	—	—	—	—

Radio Mega is the only platform combining native TV remote UX, a full global station catalog, ambient mode, and B2B white-label — in one product.
